8.   (Previously presented) A system, comprising:

a computing device for:

        storing an electronic version of a paper, wherein the electronic version is

                displayable on a display device as a likeness of the paper; and

    in response to content of a first portion of the likeness, forming a hyperlink

            reference and embedding the hyperlink reference within the first

            portion of the likeness, wherein the hyperlink reference is associated

            with a second portion of the likeness, such that when the first portion

            of the likeness is displayed on the display device, at least a portion of

            the content is selectable by a user to cause the computing device to

            display the second portion of the likeness on the display device, and

            wherein the content is at least one of the following: a term that

            indicates a location at which the second portion of the likeness is

            located within the paper; and a phrase that indicates the location.
